SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

(End of Summary of Changes)

The following items are applicable to this modification:

AMEND3 CONTINUATION PAGE

1. Due Date for Receipt of Proposals is hereby changed from 8 September 2004 at 2:00 pm. to 10 September at 2:00 pm. Proposals should be delivered to U.S. Army Engineer District, Norfolk, 803 Front Street, ATTN: CENAO-BR-C/Kunze, Norfolk, VA 23510-1096.
2. Reference Amendment 2, Additional Requirements, paragraph b, Minimum Acceptable Relevant Experience:

The dollar value of projects was erroneously changed to \$1,000,000 and should have stayed at \$500,000 as stated in the original RFP. Therefore, delete Additional Requirements provided with Amendment 0002 and replace with those attached.

3. Questions and Answers:

1. What size gas line do we relocate? **4" gas line was identified at the site by a utility marker.**
2. Can we shut down the gas line for tie-ins or do we make hot taps? **Procedures for utility shutdowns, including gas service are provided for in the specifications. A hot tap should not be necessary.**
3. There is no detail for the 36" Acid Sewer tie in on the north end of loop. Do we make it the same as the valve box tie in with stainless steel or do we tie in with HDPE to Clay pipe and use Viton boot seals with SST clamps? **It appears that the tie in with HDPE to clay pipe with Viton boot seals and SST clamps is the correct method.**
4. I cannot find any information on the two throttle valves I assume they are 18". The drawing on sheet S1012 shows what appears to be a welded body valve. Can you give me information on the valves? **Drawing S1008 and the specification section 02630A provide details for sluice gates, which appears to be the proper term to be used for the 18" throttling valves shown on S1012.**
5. Is there supposed to be a sump or drain valve in the bottom of the flow diversion pit and the valve pit to drain off rain water? **It appears that a way to drain rain water from the structures is not provided but would be desirable.**

ADDITIONAL REQUIREMENTS

CONTRACTOR PERFORMANCE AND BANKING INFORMATION

The following information shall be submitted along with the proposal.

A. Experience and Past Performance: Provide the following information (in the order given) for each qualifying project which you intend to demonstrate the minimum acceptable experience described in "Minimum acceptable relevant experience".

- Project Title
- Project Location
- Owner Name, Current Phone & Fax Number, Current Address
- Owner On site Representative Name, Current Phone Number, Current Address
- Contract Completion Date at Award
- Actual Completion Date
- Contract Price at Completion
- Brief scope of work (not more than one page) to demonstrate at least the experience described under Minimum acceptable relevant experience.

B. Minimum Acceptable Relevant Experience:

1. A minimum of three completed construction contracts with the US Army, US Navy, US Air Force, or US Marine Corps in the continental United States within the last five years with a value of at least \$ 500,000 each.
2. A minimum of one construction contract, at least 50% complete to build steel-reinforced, cast-in-place concrete tank to meet ACI 350R and connection to existing industrial waste with a minimum contract price of \$500,000 in the continental United States within the last three years. Owner may be an US Government, State, municipal or private owner.

Notes:

1. Contracts with other Government Agencies do not qualify except as otherwise noted.
2. Contract 50% complete is defined as (1) contract signed by all parties, and (2) contract price determined, and (3) payments by owner or owner representative total at least 50% of contract price, and (4) on site work under way.
3. Contracts at private, municipal or other Government industrial facilities, do not qualify, except as otherwise noted.
4. Lengthy submittals are not desired. Color photography or other expensive reproduction is not necessary.

5. Contract completion is defined as final payment made and accepted and all claims settled.
6. It is the contractor's responsibility to provide information sufficient enough to be verified.

C. Banking Information

The required banking information must include the following:

- Name and address of Bank
- Point of contact and phone/fax number
- Account number

BASIS OF AWARD:

1. All blanks must be filled in by the offeror.
2. A single award will be made.
3. Award will be made to the lowest price offer received from a responsible, responsive offeror who is technically acceptable.
4. Technical acceptability will be shown as "GO" OR " NO GO". In order to be determined technically acceptable, the reference projects shall meet or exceed all conditions as listed.
5. Proposals shall be ranked according to price. Technical proposal of the lowest priced offer will be evaluated. Award will be made to that offeror if the technical proposal is evaluated as GO. If the technical proposal is evaluated as "NO GO", the next low proposal will be evaluated and so on until a technically acceptable offer is found.
6. Prior to making award, a preaward survey will be done and the technically acceptable low offeror will be required to show that they have the necessary capital, experience and owns or can procure the necessary equipment to commence work in accordance with the specifications and complete the work safely and satisfactorily within the time specified.
