03-V4035 IVTB	Virginia Department of Transportation 1401 East Broad Street Richmond, VA 23219	Replacement of Route 231 Bridge over White Oak Run in Madison County, VA. The new bridge will be 160 feet long and 46.5 feet wide and will consist of two 80-ft spans supported by a central pier and abutments. No excavation or perm. fill will be placed below OHW. The project will require one temporary cofferdam to allow for construction of the central pier, and a temporary causeway to access the new structure during construction. Construction of a cross vane just upstream of the structure to provide scour protection to abutment B will require 18.9 cy of excavation and placement of 31.3 cy of fill below OHW. The northern approach span will require placement of 14 cy of fill in a small intermittent trib to White Oak Run. The northern approach will impact 687.55 sf (0.016 ac) of scrub shrub wetlands and 4884.17 sf (0.114 ac) of emergent wetlands. Compensation for the impacts will be debited from the Mountain Run Mitigation Bank (1:1 for emergent and 1.5:1 for scrub shrub).	Bridge over White Oak Run	4-4-2003
03-V4043 IVTA	Virginia Department of Transportation 1401 E. Broad Street Richmond, VA 23219	Replace existing 2-span steel beam bridge deck with pre-stress concrete deck. Widen Abutment A and replace Abutment B and the bridge pier. Place riprap at abutments for scour protection. 202 cy BOHW. Temp cofferdams with 19 cy BOHW.	Cub Run	3-10-2003
