

Appendix E

Water quality sensitivity result

The water quality sensitivity comparison results were shown in the following figures. The station locations are shown in Figure 2-2-3. Table E-1 below provides descriptions for each of the scenarios having results shown in this appendix.

Table E-1. Descriptions of Scenarios

Scenario	Description
S09	large-barrier, gate open
S10	large-barrier, gate close during storm, open after storm
S11	small-barrier, gate open
S12	small-barrier, gate close during storm, open after storm

Scenarios compared
