

U.S. ARMY CORPS OF ENGINEERS REGULATORY PROGRAM APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM) NAVIGABLE WATERS PROTECTION RULE

I. **ADMINISTRATIVE INFORMATION**

Completion Date of Approved Jurisdictional Determination (AJD): 01-DEC-2020

ORM Number: NAO-2015-01800

Associated JDs: N/A or ORM numbers and identifiers (e.g. HQS-2020-00001-MSW-MITSITE)

Review Area Location¹:

State/Territory: VA City: County/Parish/Borough: Chesapeake city

Center Coordinates of Review Area: Latitude 36.852181 Longitude -76.410568

Rationale for (a)(4) Determination

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form. ⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

U.S. ARMY CORPS OF ENGINEERS REGULATORY PROGRAM APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM) NAVIGABLE WATERS PROTECTION RULE

D. Excluded Waters or Features

Excluded waters $((b)(1) - (b)(12))^4$:

Exclusion Name	Exclusion Size	Exclusion ⁵	Rationale for Exclusion Determination
Wetland A	7.08 acres	(b)(1) Non-adjacent wetland	The water feature onsite is hydrologically isolated and physically remote and does not meet any of the
			paragraph (a)(1) through (a)(4) waters definitions.
Wetland B	0.36 acres	(b)(1) Non-adjacent wetland	The water feature onsite is hydrologically isolated and physically remote and does not meet any of the paragraph (a)(1) through (a)(4) waters definitions.
Wetland C	0.26 acres	(b)(1) Non-adjacent wetland	The water feature onsite is hydrologically isolated and physically remote and does not meet any of the paragraph (a)(1) through (a)(4) waters definitions.
Wetland D	0.13 acres	(b)(1) Non-adjacent wetland	The water feature onsite is hydrologically isolated and physically remote and does not meet any of the paragraph (a)(1) through (a)(4) waters definitions.
Wetland E	0.42 acres	(b)(1) Non-adjacent wetland	The water feature onsite is hydrologically isolated and physically remote and does not meet any of the paragraph (a)(1) through (a)(4) waters definitions.
Wetland F	0.07 acres	(b)(1) Non-adjacent wetland	The water feature onsite is hydrologically isolated and physically remote and does not meet any of the paragraph (a)(1) through (a)(4) waters definitions.

III. SUPPORTING INFORMATION

Α.	Select/enter all resources that were used to aid in this determination and attach data/maps to this
	document and/or references/citations in the administrative record, as appropriate.

Y	Information submitted by	or on behalf of t	the annlicant/consultant:	Title(s) and date(s)
^	IIIIOIIIIalioii Subiiiilleu Dy	, OI OII DEHAH OI, I	li le applicant/consultant.	Tilic(s) allu ualc(s)

__X This information (is/is not/is and is not) sufficient for purposes of this AJD.

Rationale: N/A or describe rationale for insufficiency (including partial insufficiency).

Data sheets prepared by the Corps: Title(s) and/or date(s).

Photographs: (NA, aerial, other, aerial and other) Title(s) and/or date(s).

X Corps Site visit(s) conducted on: *Date(s)*. 11/10/2020

X Previous Jurisdictional Determinations (AJDs or PJDs): ORM Number(s) and date(s). PJD issued November 30, 2015

Antecedent Precipitation Tool: provide detailed discussion in Section III.B.

X USDA NRCS Soil Survey: Title(s) and/or date(s).

X USFWS NWI maps: *Title(s)* and/or date(s).

_X USGS topographic maps: Title(s) and/or date(s).

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

USDA Sources	N/A.
NOAA Sources	N/A.
USACE Sources	N/A.
State/Local/Tribal Sources	N/A.
Other Sources	N/A.

- B. Typical year assessment(s): Based on the APT, the site was under normal conditions for rain.
- C. Additional comments to support AJD: Site visit conducted on November 10, 2020. Walked all ditches and drainage areas on property to see if/where flow was going. Found all ditches blocked. Lidar confirms this finding. There is no surface connection from the waters found onsite to downstream waters. This was not a delineation, this request was a Jurisdictional Determination of the waters previously delineated on site. All waters on site are excluded non-adjacent wetlands.

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form.
