

Public Notice

U.S. Army Corps of Engineers, Norfolk District

CENAO-WR-R

July 18, 2012

FEDERAL PUBLIC NOTICE

Revision of the Standard Joint Permit Application

The Norfolk District Corps of Engineers, Department of Environmental Quality (DEQ) and the Virginia Marine Resources Commission (VMRC) have issued revised versions of the Standard and Tidewater Joint Permit Applications (JPA).

Per a request from DEQ, Sections 26, 27 and 28 of the Standard JPA that pertain to surface water withdrawals activities were revised to include additional informational requirements. The revised sections request applicants provide information pertaining to the water supply plan that covers the area in which the proposed water withdrawal is located and provide information specific to projects proposing a transfer of water resources from the Chowan River, New River, Potomac River, Roanoke River, Big Sandy River, or Tennessee River basins to another river basin. These changes are to address two amendments to Sections 62.1-44.15 and 62.1-44.15:20.C of State Water Control Law that resulted from the 2012 Legislative Session.

Changes to the Tidewater JPA include updated webpage links and some minor required information fields.

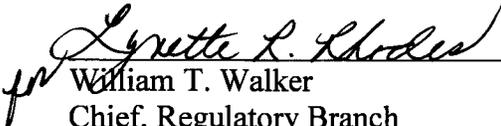

The revised JPA fillable PDF documents have been updated on the Norfolk District's Regulatory webpage on this date. The web link for the JPA can be located at the following link:
<http://www.nao.usace.army.mil/Missions/Regulatory/JPA.aspx>.

If you wish to receive a paper copy of either the Standard or Tidewater JPA, please contact our Regulatory of the Day (ROD) at (757) 201-7652, provide your mailing address and a copy will be mailed to you.

If you have any questions, please contact Katy Damico via telephone at (757) 201-7121 or via email at katy.r.damico@usace.army.mil.

Expiration Date: None

FOR AND IN BEHALF OF THE DISTRICT COMMANDER, COLONEL PAUL B. OLSEN:

William T. Walker
Chief, Regulatory Branch
