

Section 106 Consultation and Public Involvement Plan
Dominion Virginia Power's Surry - Skiffes Creek - Whealton Project
NAO-2012-00080 / 13-V0408

Introduction

Dominion proposes to construct a new high voltage aerial electrical transmission line, known as the Surry-Skiffes Creek -Whealton project. The proposed project consists of three components; (1) Surry – Skiffes Creek 500 kilovolt (kV) aerial transmission line, (2) Skiffes Creek 500 kV – 230 kV – 115 kV Switching Station, and (3) Skiffes Creek – Whealton 230 kV aerial transmission line. In total, the proposed project will permanently impact 2,712 square feet (0.06 acres) of subaqueous river bottom and 281 square feet (0.01 acres) of non-tidal wetlands, and convert 0.56 acres of palustrine forested wetlands to scrub shrub non-tidal wetlands. (See *Exhibit 1*)

Dominion indicates the proposed project is necessary to ensure continued reliable electric services, consistent with North American Electric Reliability Corporation (NERC) Reliability Standards, are provided to its customers in the North Hampton Road Load Area. The NHRLA consist of over 285,000 customers, including Newport News Shipbuilding, Joint Base Langley-Eustis, Yorktown Naval Weapons Station, NASA, Cannon, and Thomas Jefferson National Accelerator Facility.

A permit is required from the Norfolk District Corps of Engineers under Section 404 of the Clean Water Act and Section 10 of the Rivers and Harbors Act of 1899, and constitutes a Federal undertaking, subject to Section 106 of the National Historic Preservation Act (NHPA). Section 106 of the NHPA requires Federal agencies to take into account the effects of their actions, including permitted actions, on historic properties.

In accordance with Section 106 of the National Historic Preservation Act (36 Code of Federal Regulations [CFR] 800.2), USACE will provide opportunities for consulting parties and the general public to provide comments concerning project effects on properties and districts listed or eligible for listing in the National Register of Historic Places (NRHP).

Key elements of the Section 106 process include USACE's plan to integrate Section 106 with other environmental reviews, in accordance with 36 CFR 800.3(b), and the plan for conducting consultation and public involvement per the requirements of 36 CFR 800.3 (e) and (f). This document provides further detail about how USACE will integrate reviews and conduct consultation and public involvement.

Approach

In accordance with the requirements of National Environmental Policy Act (NEPA) and Section 106, USACE solicited public comments on the undertaking via public notice on August 28, 2013. These comments helped facilitate the initial steps of Section 106

review process and will be considered when preparing an Environmental Assessment (EA) for NEPA compliance. The public notice also provided interested members of the public with an opportunity to comment on the identification of historic properties and potential effects. The Corps intends to use the studies and information generated during the Virginia State Corporation Commission's review of Dominion's proposed project to inform, not to replace, the Section 106 consultation process. USACE will continue to coordinate with agencies and organizations that have demonstrated an interest in cultural resource impacts resulting from the undertaking.

USACE will continue to provide the public with information about the undertaking and its effects on historic properties, and seek their comment and input at various steps of the process. Members of the public may provide views on their own initiative for USACE officials to consider during the decision-making process.

Public Involvement

Opportunities for public comment regarding historic resource identification and potential effects have previously been provided through USACE's August 28, 2013, November 13, 2014, and May 21, 2015 public notices. Requests for a public hearing due to concerns regarding historic resources, in addition to other issues, were acknowledged by USACE. After careful consideration, USACE conducted a hearing on October 30, 2015. During the 106 process, general information has been, and continues to be, available for review at <http://www.nao.usace.army.mil/Missions/Regulatory/SkiffesCreekPowerLine.aspx>. Our website also contains links to the applicant's and consulting party websites, which contain additional project information and perspectives on the project.

Consulting Parties

As a result of the August 2013 Public Notice and the State Corporation Commission review process, USACE, in coordination with the SHPO, identified organizations that have a demonstrated interest in the treatment of historic properties associated with this undertaking. In addition to those requests received in response to the public notice, Kings Mill Community Services Association and Southern Environmental Law Center were also invited to participate as consulting parties in a letter dated March 5, 2014. On June 20, 2014, USACE notified local governments within the limits of the project (Surry County, City of Williamsburg, York County, City of Newport News, and City of Hampton) by mail, inviting their participation as consulting parties. To date, these parties have not responded positively to their participation invitation. A separate invite included First California Company Jamestowne Society who has accepted the invite to participate. On November 25, 2014, written correspondence was received from the new steward of Carter Grove Plantation indicating an inability to participate at this time. Any organization invited to be a consulting party may elect to participate in current and future steps of the process (but not previous steps) at any time.

At the initial stages of the project, when consulting parties were invited (summer, 2014), the Commonwealth of Virginia had no federally recognized tribes within its state

boundaries. However, based on coordination through other projects, the Delaware Tribe of Indians, the Delaware Nation, and the Catawba Indian Nation had expressed an interest in Virginia. In an effort to consider tribal interest, USACE consulted on August 25, 2014 with the aforementioned federally recognized Tribes on a government to government basis. In addition, USACE coordinated with the following state recognized tribes to determine their interest in participating as consulting parties: Cheroenhaka, Chickahominy, Eastern Chickahominy, Mattaponi, Upper Mattaponi, Nansemond, Nottoway, and Rappahannock Tribes. The Pamunkey Tribe, which became federally recognized on January 28, 2016, was consulted on August 25, 2014 when the tribe was state-recognized. Dominion's consultants developed a summary of the historic properties, with an emphasis on those with prehistoric Native American components, which was provided with the August 25, 2014 coordination letters USACE provided to the tribes. On October 5, 2016, Chief Gray with the Pamunkey Indian Tribe reached out to USACE requesting to participate. USACE immediately acknowledged and accepted the Tribes request.

On March 16, 2017, written correspondence was received from Kingsmill Resort requesting participation. USACE has accepted the request and will engage the Resort in any future actions specific to the "Resolution of Adverse Effects".

Throughout the process, USACE has maintained a complete list of active "Consulting Parties" (See *Attachment A*). Consulting parties have been afforded an opportunity to comment on identification of historic properties, effect recommendations, proposed measures to avoid or minimize effects and suggested mitigation options for historic properties that would be adversely affected.

Meetings

On September 25, 2014, December 9, 2014, June 24, 2015, October 15, 2015, and February 2, 2016 USACE, SHPO, ACHP, and consulting parties have held Section 106/110 National Historic Preservation Act Meeting at Legacy Hall, 4301 New Town Avenue, Williamsburg, VA 23188. General meeting objectives:

September 25th:

- Status of permit evaluation
- Corps jurisdiction
- Project Overview, Purpose & Need, Alternatives, Construction Methods
- Historic Property Identification Efforts
- Potential Effects on historic properties

December 9th:

- General Item Updates
- Historic Property Identification
- Historic Property Eligibility
- Potential Effects
- Potential Mitigation

June 24th:

- General Updates
- Resolution of Adverse Effects
 - Avoidance, Minimization, Mitigation Considerations/Measures
 - Feedback/Ideas

October 15th:

- General Updates
- NPS Visual Effects Analysis
- Stantec Consolidated Effects Report
- Resolution of Adverse Effects

February 2nd:

- General Updates
- Resolution of Adverse Effects

Numerous additional meetings have been held between various consulting parties at various stages in the process.

Resolution of Adverse Effects

MOA development process has included requests for written comments from all consulting parties on draft MOA's that were circulated December 30, 2015, June 13, 2016, and December 7, 2016, including discussions of resolution of adverse effects at several consulting party meetings.

The December 7, 2016 coordination, is believed to be the final opportunity for consulting parties to inform a decision on whether Dominion's proposed mitigation plan adequately avoids, minimizes, and/or mitigates adverse effects to historic properties. A teleconference was held January 19, 2017 with Dominion, SHPO, ACHP, and Consulting Parties to discuss MOA comments and path forward. The Corps will use these coordination opportunities and the input received to inform a decision on whether to fulfill responsibilities under Section 106 of the NHPA through either an executable MOA or termination of consultation.

At this time, it is anticipated that the MOA signatories (including invited signatories) would include USACE, SHPO, ACHP and Dominion. It is also expected that all other consulting parties would be afforded the opportunity to sign as concurring parties to an MOA.

Milestones and Tracking

A list of major milestones in the Section 106 review of the undertaking is provided as an attachment to this document (*See Attachment B*). The milestones table will be updated throughout the review process and distributed to the SHPO, ACHP, Consulting Parties, and Dominion as deemed necessary by USACE.

USACE's Section 106 consultants will receive, track, and organize the responses received in conjunction to various steps throughout the process.
