Opening Remarks

Due to the Proposed Plan Meeting for Operable Units 10 and 11, DSCR Facilitator, Mark Leeper opened the meeting at 6:30 p.m. Community Co-Chair, Janet Moe, began the meeting. Special guests in attendance included: Roy Shrove from Air Force Center of Environmental Excellence (AFCEE), facilitation contractor, Zan Martin, and Manish Joshi and Bob Onderko from Earth Tech Corporation. Mark Leeper previewed the evening's agenda and briefly discussed the items that would be covered during the meeting.

Cleanup Program Update

Mark Leeper provided the program update which included updates on the following:

- Groundwater sampling for the OU-9 IRA test was conducted in December 2006.
- Operable Unit 12: Soils impacted from Former Bldg. 112 Pesticide Operation. Closeout report is being developed.
- Operable Unit 8: Groundwater impacted from former acid neutralization pits operation. The draft Record of Decision (ROD) was sent to the regulatory agencies. The agencies are reviewing the document. The media of concern is groundwater.
- Operable Unit 2: Soil impacted from former landfill. DSCR has developed responses to historical comments issued by EPA and VDEQ. Finalization of the Technical Memorandum on the Revised Remedy Selection is proceeding. The media of concern is soils.

- Operable Units 6 & 7: Baseline Human Health Risk Assessments are being completed. DSCR will submit these documents with the Feasibility Studies. Plans for the groundwater Pilot Test are being completed. The media of concern is groundwater.
- Operable Units 10 & 11: Soils impacted from pesticide storage. Finalized the Feasibility Studies for both OU's. Legal notice of the Proposed Plan Public Meeting was posted in the Village News and Times Dispatch. The Public Comment period runs from Nov. 6th through Dec. 20th.
- Operable Unit 13: Soil impacted from past fuel oil release. DSCR is addressing comments from EPA/VDEQ regarding the Feasibility Study for OU-13.

Issues Log

Adrienne Moore led discussion of the issues log.

- Each open item in the Issues Log was discussed.
- The amount of groundwater that was pumped and treated through the OU 9 system was discussed. The restoration team is verifying the tabulated data.
- The DSCR installation tour remains on the Issues Log. The RAB selected January 13, 2007 for the tour date. Janet Moe was to provide names of those interested in partaking in the tour by January 2, 2007.
- The content for the next Community Newsletter was discussed. The issue remained open pending the research into why some of the members were not receiving the newsletter.
- The No Name Creek flooding issue was discussed. It was decided that this item will remain on the Issues Log until a date on which the new DSCR stormwater study will begin. For procedural reasons, interested parties should contact DSCR's Public Affairs Office for information relating to the installation's stormwater collection system.

Public Forum

The meeting was opened for any comments or questions from the RAB or the public.

Technical Presentation: Year in Review

Steve Edlavitch provided the RAB with a summary of the significant milestones accomplished at DSCR and discussed the completed and ongoing restoration documents. Highlights included:
