

## ACKNOWLEDGEMENTS

Mr. Gerald Bade, Mr. Michael Bartlett, Mr. Robert Currie, Mr. Les Lynn and Mr. David Smith provided invaluable assistance during the field trips. Because of their knowledge of local vegetation, a large number of species from a wide geographic area were photographed with a minimum amount of search time. In addition, Mr. Gerald Bade, Mr. Robert Croonenberghs, Mr. Robert Currie, Mr. Les Lynn, Mr. Marvin Moriarity, Mr. Walter Priest and West Virginia University Herbarium generously provided photographs of some of the species described. I gratefully acknowledge the efforts of Dr. Gene Silberhorn, and the members of the Virginia Institute of Marine Science who provided identification of some of the species contained in the supplemental section. Finally, I wish to thank Mrs. Judy Bloom, Ms. Arlene Kaplan and Mrs. Gayle Uffer for typing, proofreading and collating the entire manuscript.
