

## Refuse Services contract (W911S6-19-C-0001)

CLIN 0002

### RECYCLE COLLECTIONS

#### 2.3 Recycle Support

The Contractor shall pick up recyclables generated on post and placed in labeled dumpsters and residential totes. The Contractor shall also haul and deliver single-stream recyclable materials to local vendors approved by the KO.

PWS:

The Contractor shall submit a schedule organized by days of the week for vehicle routes and collection. ... All dumpsters shall be 6-cubic-yards in size and all residential refuse and recycling totes shall be 96-gallons in size. Proposed collection frequencies are found in Exhibit A. Maps of the garrison's current dumpster locations are given in Exhibits B-E.

...

#### [5.2 Refuse Services]

...Contractor shall collect Housing refuse on the same day each week; currently that collection is on Thursday. If Contractor proposes an alternate day, he shall do so in writing to the Contracting Officer. Pending approval from the Contracting Officer, the Contractor shall proceed with the weekly Thursday schedule for Housing.

##### 5.2.1 Residential Refuse Requirement

The Contractor shall collect, transport, and dispose of residential refuse on a weekly basis (same day each week).

...

#### 5.3.3 Recycle Collection Schedule

Contractor shall collect recyclable materials on alternating Thursdays, one Thursday for residential recycling, one Thursday for non-residential recycling. If Contractor proposes an alternate day, he shall do so in writing to the Contracting Officer. Pending approval from the Contracting Officer, the Contractor shall proceed with the requested Thursday schedule.
