Laboratory Report For

Property Tested

Braun Intertec
2309 Palace Street
La Crosse WI 54603

FY10 Family Housing
6203 Artillary Avenue
Fort McCoy WI 54656

Log Number	Device Number	Area Tested	Result (pCi/L)
1425043	2283307	Basement	1.0

Radon test results are below the EPA action level of 4 pCi/L. No further action is required at this time. The EPA suggests that you may want to test again in the future to ensure that radon levels remain below the action level. If the property tested uses water from a private well, you may wish to consider testing for radon in water.

Comment: Confidential: Release results to client only. Braun Intertec was e-mailed a copy of this report.

Disclaimer:

The uncertainty of this radon measurement is +/- 15%. Factors contributing to uncertainty include statistical variations, daily and seasonal variations in radon concentrations, sample collection techniques, and operation of the dwelling. Interference with test conditions may influence the test results.

This report may only be transferred to a third party in its entirety. Analytical results relate to the samples AS RECEIVED BY THE LABORATORY. Results shown on this report represent levels of radon gas measured between the dates shown in the room or area of the site identified above as "Property Tested". Incorrect information will affect results. The results may not be construed as either predictive or supportive of measurements conducted in any area of this structure at any other time. AccuStar Labs, its employees and agents are not responsible for the consequences of any action taken or not taken based upon the results reported or any verbal or written interpretation of the results.
