

## RECORD OF ENVIRONMENTAL CONSIDERATION (REC)

**PROJECT TITLE:** Replace Roof, Qtrs 4/3294 Terrace Drive

**Project #** 2015-5013

**Anticipated date and/or duration of proposed action: (MM/DD/YY):** 120 days

**BRIEF DESCRIPTION OF THE PROJECT:** Provide labor, materials and equipment to replace the entire roof, to include the porches on Qtrs 4.

**THIS PROJECT IS CATEGORICALLY EXCLUDED UNDER:**

a. Per 32 CFR Part 651.29(a) (1, 2, and 3): The action has not been segmented, no exceptional circumstances exist (b) (1-14), and one or more of the Categorical Exclusions (CX's) encompass the proposed action.

b. Per 32 CFR Part 651, Appendix B, Section II, the following CX applies which states: (g) Repair and maintenance activities: (1) Routine repair and maintenance of buildings, airfields, grounds, equipment, and other facilities. Examples include, but are not limited to: Removal and disposal of asbestos containing material (for example, roof material and floor tile) or lead-based paint in accordance with applicable regulations; removal of dead, diseased, or damaged trees; and repair of roofs, doors, windows, or fixtures or work on historic structures.

**Environmental Considerations**

\*If this project includes asbestos abatement either between the Illinois Department of Public Health (IDPH) reporting limit of 3 sq. ft. – 260 linear feet or possibly exceeding the Illinois Environmental Protection Agency (IEPA) reporting limit of 260 linear feet, therefore, a State of Illinois Demolition/ Renovation/Asbestos Project Notification Form must be prepared and submitted to the IEPA at least 10 working days prior to commencement of any work.

\*A copy of the asbestos project and lead-based paint forms shall also be submitted to George Schaub, IMRI-PWE, 2-6379, prior to start of any work.

\*This project shall be coordinated with Industrial Hygiene, 2-0806, prior to start of work.

\*Handling of any potential asbestos waste streams shall be coordinated with Ms. Tera Hill, IMRI-PWE, 2-7855.

\*The scope of this project involves the replacement in kind of roofing material on a contributing structure, and is identified in Stipulation IV.E. of the draft Programmatic Agreement as exempt from further review by the Illinois Historic Preservation Agency.

\*Contractor must be familiar with the USAG-RIA Spill Response & Notification procedures should a spill occur.

\*Contractor is responsible for proper collection/disposal of any solid/hazardous waste generated.

\*Contractor must consider ways to minimize dust generation.
