CLASSIFICATION: UNCLASSIFIED

Paula,

All of Family Housing was surveyed for Asbestos Containing Material (ACM) in the mid-1990's. Through various projects all of Family Housing was abated of all known ACM by the early 2000's and was removed from our re-inspection schedule. The only remaining inspection that needs to be completed is the pre-demolition survey that is required of all buildings regardless of age prior to demolition of the structures.

Respectfully,  
Matt Argust  
Installation Asbestos Manager  
Tobyhanna Army Depot  
PA Asbestos Cert #: 040174
