

U.S. ARMY CORPS OF ENGINEERS
REGULATORY PROGRAM
APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM)
NAVIGABLE WATERS PROTECTION RULE

I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): 09-JUL-2021

ORM Number: NAO-2021-01056

Associated JDs: N/A

Review Area Location¹:

State/Territory: VA City: County/Parish/Borough: Henrico County

Center Coordinates of Review Area: Latitude 37.643561 Longitude -77.496074

II. FINDINGS

A. Summary: Check all that apply. At least one box from the following list **MUST** be selected. Complete the corresponding sections/tables and summarize data sources.

- The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: N/A or describe rationale.
- There are “navigable waters of the United States” within Rivers and Harbors Act jurisdiction within the review area (complete table in section II.B).
- There are “waters of the United States” within Clean Water Act jurisdiction within the review area (complete appropriate tables in section II.C).
- There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in section II.D).

B. Rivers and Harbors Act of 1899 Section 10 (§ 10)²

§ 10 Name	§ 10 Size	§ 10 Criteria	Rationale for § 10 Determination
N/A	N/A	N/A	N/A

C. Clean Water Act Section 404

Territorial Seas and Traditional Navigable Waters ((a)(1) waters)³

(a)(1) Name	(a)(1) Size	(a)(1) Criteria	Rationale for (a)(1) Determination
N/A	N/A	N/A	N/A

Tributaries ((a)(2) waters):

(a)(2) Name	(a)(2) Size	(a)(2) Criteria	Rationale for (a)(2) Determination
N/A	N/A	N/A	N/A

Lakes and ponds, and impoundments of jurisdictional waters ((a)(3) waters):

(a)(3) Name	(a)(3) Size	(a)(3) Criteria	Rationale for (a)(3) Determination
N/A	N/A	N/A	N/A

Adjacent wetlands ((a)(4) waters):

(a)(4) Name	(a)(4) Size	(a)(4) Criteria	Rationale for (a)(4) Determination
N/A	N/A	N/A	N/A

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District’s list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

D. Excluded Waters or Features

Excluded waters ((b)(1) – (b)(12))⁴:

Exclusion Name	Exclusion Size	Exclusion ⁵	Rationale for Exclusion Determination
Man-Made Drainage Ditch A	804 feet	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1)	This ditch does not satisfy the definition of a (a) (2) tributary [33 CFR 328.3 (c) (12)] because it did not relocate a tributary, was not constructed in a tributary or an adjacent wetland. Additionally, the ditch exhibited ephemeral flow characteristics.
Man-Made Drainage Ditch B	376 feet	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1)	This ditch does not satisfy the definition of a (a) (2) tributary [33 CFR 328.3 (c) (12)] because it did not relocate a tributary, was not constructed in a tributary or an adjacent wetland. Additionally, the ditch exhibited ephemeral flow characteristics.
Man-Made Drainage Ditch C	289 feet	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1)	This ditch does not satisfy the definition of a (a) (2) tributary [33 CFR 328.3 (c) (12)] because it did not relocate a tributary, was not constructed in a tributary or an adjacent wetland. Additionally, the ditch exhibited ephemeral flow characteristics.
Man-Made Drainage Ditch D	650 feet	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1)	This ditch does not satisfy the definition of a (a) (2) tributary [33 CFR 328.3 (c) (12)] because it did not relocate a tributary, was not constructed in a tributary or an adjacent wetland. Additionally, the ditch exhibited ephemeral flow characteristics.
Wetland A	0.013 acres	(b)(1) Non-adjacent wetland	This wetland does not satisfy the definition of an (a) (4) adjacent wetland [33 CFR 328.3 (c) (1)] because it does not abut a tributary, is not inundated by flooding from a tributary, and is not separated from a tributary by a natural feature. Additionally, this wetland does not exhibit a direct hydrologic surface connection to a downstream jurisdictional water.
Wetland B	0.04 acres	(b)(1) Non-adjacent wetland	This wetland does not satisfy the definition of an (a) (4) adjacent wetland [33 CFR 328.3 (c) (1)] because it does not abut a tributary, is not inundated by flooding from a tributary, and is not separated from a tributary by a natural feature. Additionally, this wetland does not exhibit a direct hydrologic surface connection to a downstream jurisdictional water.

III. SUPPORTING INFORMATION

A. Select/enter all resources that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.

Information submitted by, or on behalf of, the applicant/consultant: Waters of the U.S. Report
March 17, 2021

This information is sufficient for purposes of this AJD.

Rationale: N/A

Data sheets prepared by the Corps: *Title(s) and/or date(s)*.

Photographs: Ground level photos submitted in report

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.
