Date: July 11, 2016

Dear Colonel Kelly:

SUBJECT: SURRY-SKIFFES CREEK-WHEALTON ELECTRIC TRANSMISSION  
PROJECT

As Commanding Officer, Naval Weapons Station Yorktown, I would like to take the opportunity to reiterate the mission essential requirements for a stable and reliable electric power source for this strategic Navy installation on the Virginia peninsula.

The enclosed letter from Commander, Navy Region Mid-Atlantic to your predecessor expresses the Navy's continued interest and support of transmission line improvement projects.

It is expressly understood, however, that this letter is an expression of interest in the positive effect of stable and reliable electric power to military installations and does not create any right of action or obligation of government funds. We look forward to working with the USACE in continuing this important effort.

Sincerely,

P. C. HAEBLER  
Captain, U.S. Navy  
Commanding Officer
